About Our Guest Speaker: Margo Day

During a sabbatical year, Margo Day travelled the world looking through the lens of child

protection and girls' education. She sought to understand cultural issues that are obstacles for women and girls' educational empowerment. Margo observed successful interventions including ones that changed attitudes toward female genital mutilation (FGM) and early marriage. From this experience came a passion to continue advocating for women and girls globally.

About iZosh:

iZosh is a group of women dedicated to the economic empowerment of women globally who are living in extreme poverty. By giving micro loans to these women we help them to lift themselves out of extreme poverty and reduce the risk of oppression and exploitation in their lives.
